### Development of the ERA 2015 Submission Journal List

In preparation for the ERA 2015 evaluation, the ARC reviewed the previous ERA Journal List. This process occurred in three phases, the first being a public consultation and consolidation of the suggested changes. In the second phase peak bodies and academic groups reviewed the consolidated list from phase 1. The peak bodies and academic groups made recommendations to the ARC regarding the final determination of the ERA 2015 outlets. In the third phase the ARC reviewed comments and finalised the draft outlets lists.
